Summary

Motivated and detail-oriented Full Stack Developer with expertise in frontend (React.js, HTML, CSS, JavaScript) and backend (Node.js, Express.js, databases – SQL/NoSQL) development. Skilled in building scalable web applications, implementing APIs, and delivering responsive, user-focused solutions. Passionate about modern software practices and creating impactful projects that blend functionality and design.

Technical Skills

- **Frontend:** HTML, CSS (Bootstrap, Tailwind), JavaScript, React.js
- **Backend:** Node.js, Express.js
- Databases: MySQL, MongoDB (SQL & NoSQL)
- **ORM:** Mongoose
- **APIs:** RESTful APIs, third-party API integrations
- **Other:** Git, UI/UX considerations, problem-solving, agile development

Projects

ShopBuzzra (E-commerce Platform | React.js, Node.js, MongoDB)

- Developed a full-stack e-commerce platform with user authentication, product management, and secure checkout.
- Integrated eSewa payment gateway for real-time transactions.
- Designed a responsive UI to ensure seamless shopping across devices.

Lifestyle Blogs (React Frontend Project)

- Built a responsive blog platform using React components and routing.
- Implemented clean UI/UX design to enhance content readability.
- Optimized navigation for a smooth and intuitive browsing experience.

Goggl React (Search Engine Interface)

- Developed a custom search interface using React and Google Custom Search API.
- Implemented search functionality for both text and images with dynamic results.
- Managed global state using React Context API for seamless data sharing across components.
- Added support for YouTube search via RapidAPI integration.

Education

B.Sc. in Computer Science & Information Technology   2022 – Present

Prime College, Kathmandu, Nepal
