Summary

Motivated and detail-oriented Full Stack Developer with expertise in frontend (React.js, HTML, CSS, JavaScript) and backend (Node.js, Express.js, databases – SQL/NoSQL) development. Skilled in building scalable web applications, implementing APIs, and delivering responsive, user-focused solutions. Passionate about modern software practices and creating impactful projects that blend functionality and design.

Technical Skills

- **Frontend:** HTML, CSS (Bootstrap, Tailwind), JavaScript/TypeScript, React.js
- **Backend:** Node.js, Express.js
- **Databases**: MySQL, PostgreSQL, MongoDB (SQL & NoSQL)
- **ORM:** Mongoose, Prisma
- **APIs:** RESTful APIs, third-party API integrations
- **Other:** Git, UI/UX considerations, problem-solving

Projects

ShopBuzzra (E-commerce Platform | React.js, Node.js, MongoDB)

- Developed a e-commerce platform with user authentication, product management, and secure checkout.
- Integrated eSewa payment gateway for real-time transactions.
- Designed a responsive UI to ensure seamless shopping across devices.

Zobly – Job Portal Platform (React, Node.js, Express, Prisma, PostgreSQL)

- Developed a full-stack job portal allowing employers to post/manage jobs and job seekers to apply with resumes.
- Implemented role-based authentication, secure JWT cookie sessions, and application tracking.
- Integrated Cloudinary for file uploads and designed a responsive UI for seamless cross-device experience.

Lifestyle Blogs (React Frontend Project)

- Built a responsive blog platform using React components and routing.
- Implemented clean UI/UX design to enhance content readability.
- Optimized navigation for a smooth and intuitive browsing experience.

Education

B.Sc. in Computer Science & Information Technology   2022 – Present

Prime College, Kathmandu, Nepal
